

Redeemer Lutheran School

Mission: To provide a Christ-centered, nurturing program that meets or exceeds state academic standards

BUILDING
a bright *future*
for local
Children

hope for local Parents and Children

According to the Washington State Board of Education, there were 81,898 students enrolled in 552 approved private K-12 schools in our state in the 2023-2024 school year. A school committee survey found Tri-Cities Christian schools have wait lists, use prioritized acceptance criteria, or turn children away for lack of space. There is a need for more Christian schools in the Tri-Cities.

Who: The school will serve Grades K-5 children... with 15 or less children per classroom and onsite playground, security, drop-off/pick-up.

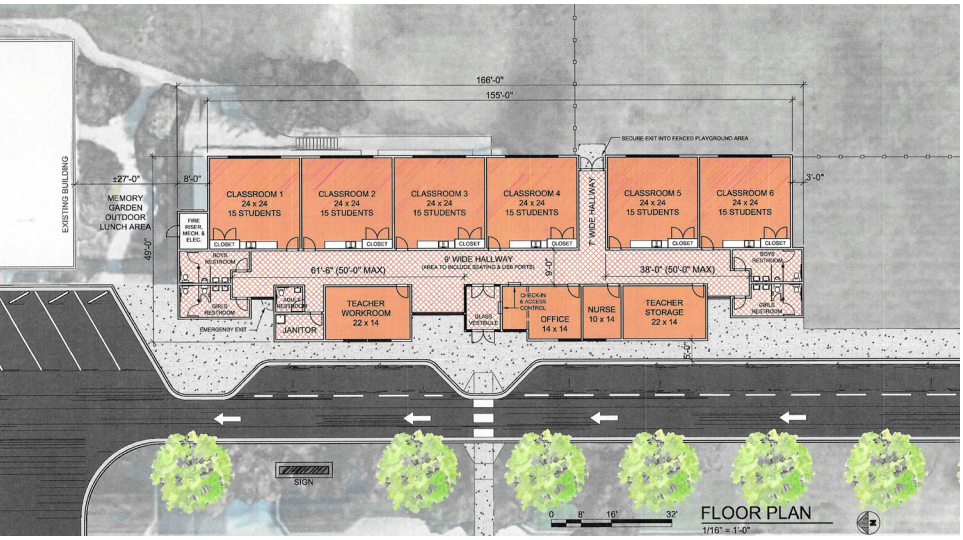

What: The school's traditional curriculum includes reading, writing, spelling, math, science, health, and history taught by certified teachers via individualized and group learning... with art, music, and p.e. classes... and the Word of God present, throughout.

Where: The school will be built next to Redeemer Lutheran Church.

When: The school is scheduled to open in the fall of 2028.

Why: Our nation's children are struggling academically and spiritually. Redeemer Lutheran School will prepare students to prosper and to lead; changing darkness to light, engraving Holy Scripture on hearts and minds, one student leader at a time.

SIGNIFICANT DATES

- January 2023
Committee forms

- May 2023
Church Council endorses School Committee

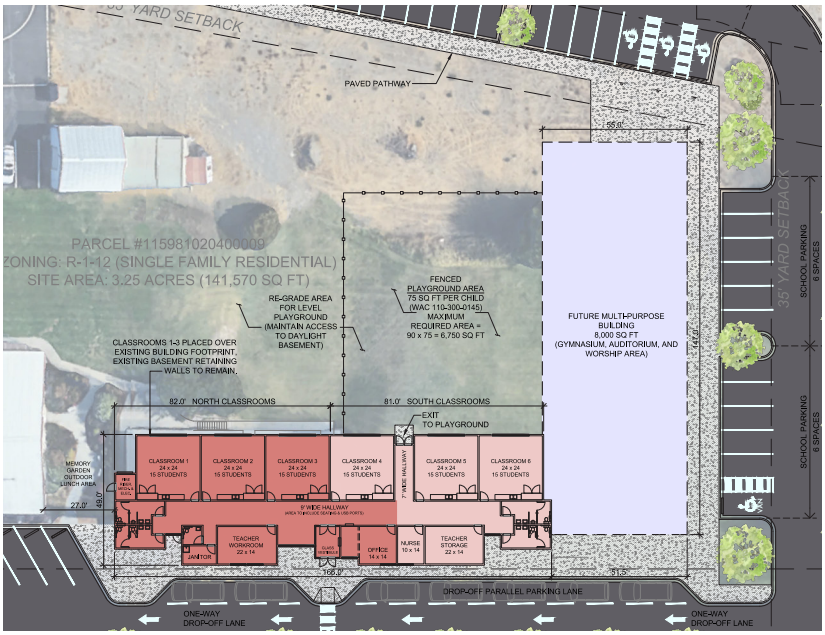

- July 2023
